Experience the PC Mall Advantage!

Dedicated Account Representatives

More than 125,000 Brand Name Technology Products

99.9% Same-Day Fulfillment of In-Stock Items

Configurations from Notebooks to Enterprise Solutions

Corporate Access Pages

Save time and money with your own customized extranet/web portal.

Our customized Corporate Access Pages, or CAP sites, are designed specifically for business. They provide a range of free services that save both time and money while streamlining all your hardware and software acquisitions!

- Customized pricing
- Easy-to-use requisition processes that allow for multiple approval and authorization levels
- Software Licensing with volume discounts and record tracking
- Intuitive and thorough reporting for company-wide purchases

Your PC Mall Account Executive can set up a CAP site for your organization today.

Employee Purchase Program

Share your corporate discount with your employees at no cost to your company through an Employee Purchase Program or EPP site. An EPP site gives your employees access to PC Mall's incredible selection of consumer products from iPods and systems to digital cameras and computer games!

An EPP site makes a great holiday gift for your employees.

Check out these great services from PC Mall!

We offer far more than just hardware and software.

Leasing and financing with PC Mall:

- **Leasing Benefits:**
100% financing of your entire purchase, not just specific manufacturers!
- Easy and fast approval!
- Free up your cash for other activities!

Instant credit for small businesses:

- \$5000 to \$10,000 Instant Credit

Design Services

We can improve the speed and security of your network while maximizing the use of your existing infrastructure. PC Mall's dedicated team of certified experts can design network solutions for organizations of every size!

License Tracking

PC Mall maximizes your software licensing investments with online tools that simplify and streamline your software purchases. Our Software Licensing Asset Manager lets you track expiration dates, reduce costs, set security levels and more.

Imaging/Replication Services

Installing a couple of computers isn't complicated. But setting up a new office with twenty or more systems can take considerably more IT resources. PC Mall can manage the imaging and installation process by automating the configuration of computers and other IT equipment.

Asset Tagging

Our Asset Tagging Services include the tagging, labeling and reporting of your acquisitions. Information gathered can include purchase order numbers and dates, model numbers, shipping addresses and more. All of this data can be managed and downloaded through your Corporate Access Page.
