Keep Everyone Communicating

Increase your mobility, productivity, collaboration and competitive firepower with Microsoft Outlook with Exchange 2010. PC Mall hosts innovative Microsoft solutions at affordable rates for businesses of every size so they can stay focused on growth and success.
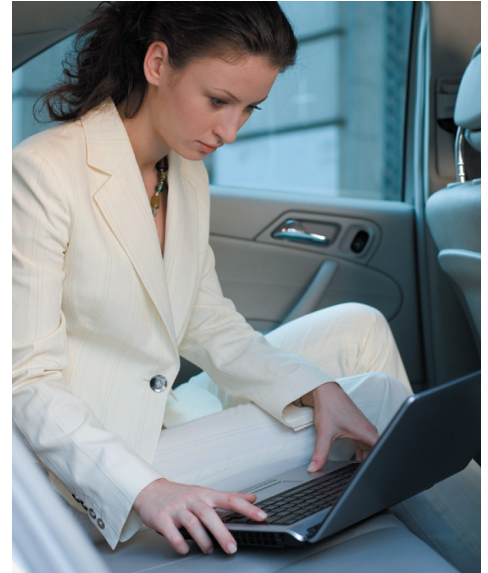

Powerful hosting via Microsoft Communication Services

PC Mall allows you to consolidate multiple communication technologies that can be hosted externally with Microsoft Communication Services, also known as MCS. We'll take on the responsibility of hosting your e-mail, SharePoint, instant messaging and other services at a considerable cost saving. And you'll still be empowering your workforce and your clients with the most efficient and secure communication and collaboration.

Fewer Burdens for Your Business

The Microsoft Communication Services that PC Mall hosts are essential for modern businesses. Every organization and enterprise needs them, but they can be challenging to deploy and maintain. By turning these services over to PC Mall, you no longer have to provide the physical space, servers, power, cooling, networking infrastructure or IT staff required to manage it all.

The cost savings can be significant, and the experience of hosted services is transparent to your end users. With PC Mall hosting your

With our hosted Microsoft Communication Services, PC Mall will keep your workforce connected and productive wherever they roam.

pcmall.com

We maintain SAS70 Audit Type II accredited data centers to meet the highest standards of internal control. From server virtualization to high-availability SAN storage, PC Mall supports all of your advanced business technology needs.

Unlike other providers of MCS who are held back by restrictions or limitations on what they can provide, we can harness the full complement of PC Mall's service solutions to meet your business needs. For example, your business could deploy Exchange Server on-premises, host your mailboxes with Exchange Hosting Services, or combine these two options in a hybrid development.

Dedicated Environments

PC Mall can even provide a dedicated, customized environment for your hosting. That means you will have your own designated servers, software licensing and other technologies that are separated from any of the hosting setups that we have for our other clients. The end result is a customized data center devoted only to your business that offers all of the benefits of off-site hosting.

Affordable and Flexible

Call your PC Mall Account Executive today and start leveraging the power of Microsoft's newest productivity tools—including Microsoft Outlook with Exchange 2010, SharePoint, Live Meeting and Microsoft CRM—for versatile, scalable and affordable communications and incredible cost savings.

With dependable hosting services from PC Mall, your business can avoid the heavy hardware, software and support expenses required for on-premise deployments.

◗ Take advantage of any or all components
◗ Eliminate the up-front capital costs associated with new solutions
◗ Leverage low monthly per user fees to access the latest applications as your business grows
◗ Implement a solution that grows and scales with your business without forcing you to hire additional IT staff
◗ Subscription-based hosting services provide access to the latest communications tools as your business needs change
