PC Mall Gov can provide qualified candidates for your local or nationwide projects, as well as recruiting for permanent positions, temporary to permanent positions, and long-term temporary or contract positions.

Get the temporary and permanent IT help you need

PC Mall Gov can help you with the unpredictable demands an organization can put on an IT department. In many cases, it may not be within your strategic interest to hire permanent full-time employees for short-term projects. We can provide staff for projects managed by your team, such as IMAC, help desk, and desktop support. We can also bring on specialized personnel during high-level implementations, including storage, messaging, security, and networking infrastructure.

PC Mall Gov provides the flexibility and varied skill sets you need to complete your projects while helping you maintain budgetary control over variable costs and human resources. We work with you to define the necessary skill sets and then deliver the right resources to fill all of your business requirements.

Staffing Services:

- ▶ Temporary or Contract Staffing — includes any IT or clerical resource needed for at least a one-month term at 40 hours per week. These hours are managed by the client.
- ▶ Staff Recruiting — provides candidates for permanent positions with our clients. PC Mall Gov is paid a one-time fee.

Wide-ranging Strengths:

- ▶ Service desks and telephone-based technical support
- ▶ Desktop management that provides field support at the desktop level
- ▶ Data center deployment and management
- ▶ Network infrastructure and security
- ▶ Web development

Specialties Include:

- ▶ Decentralized or campus environments
- ▶ High-turnover positions
- ▶ Coverage for dynamic governmental and education environments experiencing spikes in IT activity
