PCM Partnership Benefits

Customized Corporate Sites

Our customized Business Direct Sites provide a range of free services that save you time and money by streamlining your acquisitions, managing your software licenses, reporting on purchases, and more.

Employee Purchase Programs

Share your corporate discount with your employees at no cost to your company through an Employee Purchase Program (EPP). An EPP site gives your employees access to PCM's inventory at great low prices.

Dedicated Account Executives

Our experienced Account Executives partner with you to understand your business and develop smart solutions to solve your challenging technology needs.

Integrated Solutions

PCM's highly experienced and certified specialists can help plan, deploy, and maintain core technology solutions, including data center optimization, virtualization, Microsoft solutions, networking, digital signage, security, print services, and much more.

Lifecycle Services

From staging new equipment to disposing of old systems and everything in between, PCM is with you every step of the way, providing essential services across the entire IT lifecycle spectrum.

Leasing and Financing

Leasing IT services is a sound, fiscally responsible alternative to buying, and PCM Finance can help you maintain your competitive edge and cash flow with multiple leasing options.

Enterprise Relationships

Because of long-standing relationships with enterprise-level vendors — Microsoft, Cisco, IBM, VMware, and many more — PCM is proud to offer over 300,000 products covering every aspect of IT for all marketplaces.

Work anywhere with Secure Mobility

Mobility is the driver for nearly everything in a modern office as workers become more remote and rely more on smartphones, tablets, and laptops. And the number of organizations adopting Bring Your Own Device (BYOD) policies has also skyrocketed. The fact that workers can — and their companies want them to — work from anywhere means that traditional computing concepts and platforms must change.

Users expect to be able to access their business applications — email, contacts, calendars and shared files — on these devices from any location and at any time of the day. They want to be able to collaborate with their colleagues in real-time and with a seamless experience no matter what device they choose. In response, IT departments must determine the requirements needed to secure and support these mobile devices.

Secure Mobility refers to both the devices themselves and the back-end hardware and software components, along with the design and implementation services required to make sure only authorized devices access the business network, that applications work the way they are supposed to, and that data remains safe and intact.

How will Secure Mobility help me?

Our team of certified engineers, technicians, and project managers stand ready to provide your business a comprehensive solution around:

- Evaluating your current infrastructure and your organization's mobile security policy
- Assisting with the design and implementation of a customized Mobile Device Management solution
- Managing various mobile devices and platforms
- Provisioning devices with various levels of security/access
- Increasing Wi-Fi network security
- Reducing the security risks of lost/stolen devices
- Encrypting data to prevent loss of sensitive information
- Combating threats from emerging malware and viruses
- Empowering users to enroll & manage their own devices
- Defining & implementing a comprehensive security policy

Together with our experienced partners like Cisco, Apple, Lenovo, AirWatch, BlackBerry, and more, PCM can help you choose the secure mobility products and services that make sense for your organization.

How can PCM help me get started?

When you team up with PCM, you get a partner who supports you through all phases of the Secure Mobility lifecycle, from assessing and building your strategy through implementing and supporting a solution. You benefit from the best practices generated by the experience of our 800 certified engineers, technicians, and project managers as well as through our partnerships with industry leaders in secure mobility. Our Mobile Device Management services include:

- Assessment, Planning, and Deployment Services
- Security Management Services
- Deployment Services
- Hardware and OS Support Services
- Training Services

Productivity for the office and beyond
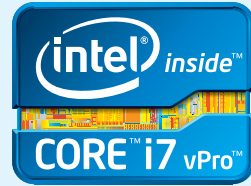

With decades of experience building the best notebooks for business, HP develops a wide range of systems to satisfy the demands of mobile users. Utilizing Intel® Core™ processors, brilliant displays, and elegant designs, today's HP notebooks have the power and durability to outlast the competition. Call today for more information.

Making the switch to Windows® 8 is a cinch with HP notebooks. Most come with licenses for both Windows® 7 and 8, so you can change operating systems when you're ready.

Affordable, dependable HP notebooks

Power users may need a lot of technological bells and whistles, but most mobile pros only use a fraction of their laptop's capabilities. Instead of wasting resources on high-end equipment, give your teams the tools they really need: dependable HP notebooks that deliver the perfect balance of performance and price point.

Whether you're updating a handful of aging notebooks or rolling out hundreds of new systems, PCM can help make your deployment a lasting success.

Full-sized strength, pint-sized package

Surface space is precious real estate in any office. Old-school PC towers used to be real desk hogs, but HP is changing the rules. Their innovative line of Small Form Factor PCs squeezes powerful computing strength into an ultra-compact chassis. And even though these systems sport a small footprint, they still have room to grow with more memory, larger storage drives, and graphics cards. To start maximizing your desk space, call PCM today.

DIAL IN YOUR YOUR DATA CENTER'S PERFORMANCE

PCM can help you unleash your infrastructure's true power potential

The data center has always played a central role in the work environment. Yet new technologies and work strategies — mobile workers, big data, virtualization, cloud computing, and more — are placing increasing demands on networks. To meet these demands, new data centers are being built and existing facilities are undergoing upgrades. And for businesses looking to outsource their entire data center, cloud hosting services provide easy, scalable access to computing resources and IT services.

When considering data center solutions, areas such as high capacity servers, storage, switches, power and cooling, cabling, and virtualization are all considerations, not to mention the new technologies that integrate these data center components into a single, unified structure.

How will a Data Center help me?

Today's high-density, consolidated, converged, or virtualized data center is a complex environment. Every decision in the data center is critical, and mistakes can be costly. We can help you modernize your data centers by taking advantage of the latest technologies while maximizing expenditures to gain efficiencies and performance. Data center solutions will enable your organization to address challenges such as:

Complexity: Newer technologies can reduce complexity through a single integrated architecture, deliver flexibility and scalability, and streamline management of software and hardware components.

Security and Compliance: Networks must be able to support access to a growing number of devices, including desktops, laptops, tablets, and smart devices — and this access must be controlled and secure.

Quality Experience: Modern data centers are able to deliver data, voice and video communications to users at all hours of the day, no matter the location on any number of devices of choice by the user.

How can PCM help me get started?

Modernizing the data center can be complicated. We'll work with you to plan and implement an integrated, cost-effective, end-to-end solution backed by a highly skilled team of Services engineers, technicians, and project managers. Together with our leading solutions partners like HP, Cisco, APC, IBM, and Dell, we can help you create a robust data center that handles rapidly changing demands and emerging technologies, including:

- Storage Solutions
- Networking Solutions
- Software Solutions
- Environmental Solutions
- Virtualization Solutions
- Cloud Hosting Solutions

PCM is a true value-added provider for Data Center solutions. To learn more about how we can help you design, implement, secure, and manage your data center, contact your dedicated Account Executive today.

Powerful data center appliances

Dell PowerEdge™ T420 Tower Server

Help deliver robust performance, scalability and reliability to your organization with the ample power, memory and I/O bandwidth of the PowerEdge™ T420 tower.

- Quad-core Intel® Xeon® processor E5-2407 (10MB cache, 2.20GHz)
- 8GB DDR3 ECC SDRAM (expandable to 384GB)
- 1TB storage (2×500GB 7200RPM SATA-300 drives)
- 16 total hot-swappable 2.5" hard drive bays
- Dell™ PERC H700 RAID controller
- Dual-port Gigabit Ethernet network controller
- Two 495W hot-swappable power supplies

only **$2629⁹⁹** #9421480

Dell PowerEdge™ T620 Tower Server

Process everything quickly with the PowerEdge™ T620 tower server — high performance and enterprise availability with built-in room for growth.

- 6-core Intel® Xeon® processor E5-2620 (15MB cache, 2GHz)
- 8GB DDR3 ECC SDRAM (expandable to 768GB)
- 600GB storage (2×300GB 10000RPM SAS-2 drives)
- 32 total hot-swappable 2.5" hard drive bays
- Dell™ PERC H710 RAID controller
- Dual-port Gigabit Ethernet network controller
- Two 750W hot-swappable power supplies

only **$2819⁹⁹** #9421478

Dell KACE Systems Management Appliances

If traditional software-based systems management approaches are falling short, make the switch to Dell™ KACE Systems Management Appliances. They deliver a fully integrated systems management solution that's quick to deploy, easy to manage, and affordable to maintain. Plus, Dell™ KACE handles almost any systems management task — from asset management to software distribution — all from a single appliance.

- Performs a comprehensive list of systems management jobs, including device discovery, patch management, service desk, power management, reporting, security enforcement, and many more
- Typically deployed in a single day with Plug-n-Play connectivity over your LAN network
- Intuitive web-based management console

Dell EqualLogic™ PS6100 Series Enterprise-Class Midrange Storage

The Dell™ EqualLogic™ PS6100 Series, with innovative virtualization technology and automatic load balancing, delivers enterprise power with everyday simplicity.

- Available in six different array configurations
- Up to 67% IOPS increase for typical workloads
- Scales up to 72TB
- Enhanced Thin Provisioning awareness with VMware vSphere 4.1

hp

Tomorrow's data center technology has just arrived. The powerful Gen8 series of HP ProLiant DL360p servers has been completely redesigned to make your systems smarter, faster, and more self-sustaining than ever before. Its HP iLO Management Engine balances power consumption with compute demands for maximum efficiency, and the new FlexibleLOM technology makes it simple to switch between network fabrics. In fact, every aspect of server management is simpler with HP's Gen8 series. Call your PCM Account Executive to learn more about this exciting platform.

Unswerving strength

Whether your business is running a physical or virtual data center, the HP ProLiant DL380p G8 series of servers has the robust processing power, massive memory capacity, and automated management features you need to work at peak efficiency. Plus, each server is equipped with
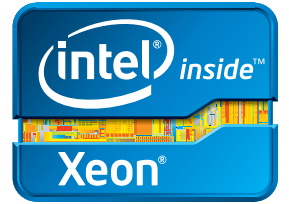

16 hot-swappable SFF SAS/SATA drive bays that are optimized for solid state drives, giving you plenty of room to load up on high-speed storage. Contact your PCM Account Executive to find out how these heavyweight servers can strengthen your data center.

DEPENDABLE UPTIME

Thanks to Intelligent Provisioning, setting up your new HP ProLiant DL380p G8 server is a cinch. Within three seconds of powering on, your server begins guiding you through a scripted configuration process complete with error checks.

Condensed servers for lean data centers

The all-new ProLiant BL460c Gen8 server series has been built from the ground up for unprecedented performance, enhanced flexibility, and simplified management. Along with its upgrade to the blistering Intel® Xeon® E5-2600 processor family, this line of blade servers also gives you more DIMM slots to hold up to 512GB of RAM — including 1.35V low-voltage memory. Plus, the iLO Management Engine helps automate your data center upkeep, improving your uptime while driving down maintenance costs. Call your Account Executive today to learn more about BL460c servers.

M O D U L A R   &   F L E X I B L E

To help future-proof your data center, HP incorporated their new FlexibleLOM network adaptors into the BL460c G8 line. This versatile technology allows you to switch between different connection standards without upgrading your hardware or installing a PCIe card.

HP ProLiant BL460c G8 Server

Smart solutions from APC that keep your systems running

The LCD display provides a quick view of key UPS stats.

SmartUPS 1500VA LCD RM 120V

When it comes to protecting your vital equipment from surges, black outs, and dirty power, turn to a trusty APC SmartUPS. In addition to its legendary reliability and manageability, your SmartUPS has extremely high efficiency at low, medium, and high load levels, making it ideal for today's multi-core or virtualized servers with varying load consumption.

Because they mount right in the rack, APC SmartUPS devices are perfect as the primary or redundant line of defense for blade or density-optimized servers in a distributed power protection environment. Plus, they feature a 16-segment LED display and extended range automatic voltage regulation (AVR).

- Delivers clean, network-grade power with automatic voltage regulation, noise filtering, and surge protection
- Built-in LCD display shows you detailed, accurate UPS information and lets you configure locally
- Green Mode runs at optimal energy efficiency
- Advanced battery management tools compensate for temperatures to extend battery life

Comprehensive data protection for today's virtual data centers

Symantec Backup Exec 2012 V-Ray Edition

Symantec Backup Exec 2012 V-Ray Edition is designed to completely protect your VMware or Hyper-V virtual environments. With advanced host-based virtual protection and integrated deduplication, Symantec's V-Ray Edition gives you worry-free backup and recovery for virtual machines and virtualized applications. And Backup Exec makes it easy to perform granular recoveries of entire virtual machines, single files, Active Directory objects, Exchange emails, or SharePoint documents from a single-pass, host-level backup.

- Award winning data protection and disaster recovery designed for physical and virtual environments in a single, unified solution
- Protect an unlimited number of virtual machines per host
- Best of breed data deduplication to optimize any backup strategy with client, media server, and appliance data
- Modern administration console makes it easy to set up backups, manage backup policies, perform disaster recoveries, and convert backups to virtual machines
- Virtual Machine Auto Recovery for VMware provides high availability for virtual applications

With Backup Exec 2012 V-Ray Edition, you can cut your data backup storage by up to 10:1, saving you both time and money.

Trend Micro Deep Security 9 Anti-Malware

Deep Security provides enhanced server security for physical, virtual, and cloud servers through tightly

integrated modules that let you customize your security. Trend Micro's Anti-Malware module is one of the most powerful add-ons to your Deep Security deployment and helps defend your data by:

- Integrating VMware vShield endpoint aPls to protect VMware virtual machines against viruses, spyware, trojans, and other malware with zero in-guest footprint
- Delivering an anti-malware agent to extend protection to physical servers as well as public cloud servers
- Improving security performance through eSX level caching and deduplication
- Optimizing security operations to avoid antivirus storms commonly seen in full system scans and pattern updates
- Tamper-proofing security from sophisticated attacks in virtual systems by isolating malware from anti-malware

OUT OF THE OFFICE, STILL IN THE LOOP.

Stay connected with Borderless Networks

Imagine a global network that allows a System Administrator to control all the computers, mobile devices, lights, security systems, printers, and more. Moreover, the network can be in the same location or halfway around the globe. That's the power of Borderless Networks.

A Borderless Network is designed to give workers an easy, reliable, and secure connect to business systems and applications regardless of their physical location, time zone, or device. All the network components — routers, switches, firewalls, and VPNs — are holistically envisioned, integrated, and deployed to deliver the same computing experience whether the user is in the office, at home, or in an airport.

Borderless Network solutions were developed to meet the increased performance demands of streaming video, wireless networking, cloud computing, virtualization services, and the rising use of mobile devices. Securing the Borderless Network allows organizations to control access without stifling collaboration. Networks are extended out to mobile workers to give them access to company resources and to keep them secure while controlling data leakage.

How will Borderless Networks help me?

Today's workforce is mobile savvy and conditioned to be able to connect anywhere, anytime, and on any device. Deploying a Borderless Network solution allows your IT department to address this new architecture, support the new workforce, and maintain data security through:

- A robust network platform capable of delivering real-time collaboration experiences to any device
- Transparent mobility with location services for anytime, anywhere communications
- Security for devices on both local networks and the cloud
- Sustainability and reduced energy costs for efficient and cost-effective business operations
- Optimized performance for rich-media applications
- Policy-based access control & identity-aware networking
- Compliance with current and future government and industry regulatory requirements

A Borderless Network is a technical architecture than links users, devices, applications and business processes, and this architecture enables IT departments to innovate faster while providing more control over what is happening on the network.

How can PCM help me get started?

Whether you are considering a small scale network project to enable mobile devices or a more comprehensive project to incorporate video, wireless, security, network infrastructure, cloud, or virtualization, PCM has the expert resources available to keep your organization moving forward. With over 800 certified Services experts and strong partnerships with Cisco, HP, Dell, Microsoft, and more, we can customize a comprehensive solution to address your current and future needs. Your Account Executive can provide access to a robust offering of services, including:

- Assessment, Planning, and Deployment Services
- Network Management Services
- Security Management Services
- Mobile Device Management
- Product Lifecycle Services
- Service Desk Support
- Training Services

Fill your office with reliable, rapid wireless

Cisco Aironet 1262N Controller-based Wireless Access Point

Provide reliable and predictable 802.11n wireless coverage for indoor environments. Cisco Aironet 1260 Series wireless access points deliver up to nine times the throughput of 802.11a/g networks for multimedia applications. Designed specifically for challenging environments, the 1260 Series supports external antennas and a broad operating temperature range.

Building on the Aironet heritage of RF excellence, the 1260 Series delivers industry-leading performance for secure and reliable wireless connections. Enterprise-class silicon and optimized radios deliver a robust mobility experience using Cisco M-Drive technology, including ClientLink for improved reliability and coverage for legacy clients.

- Standard 802.3af Power over Ethernet
- Works seamlessly with Cisco Unified Wireless Networks
- Support for a variety of media mobility services
- VideoStream uses multicast to improve the performance of multimedia applications

Cisco Aironet 1141 Standalone Wireless Access Point

Get six times the performance of 802.11a/g networks for reliable connections to Wi-Fi voice, streaming video, and business applications. Cisco Aironet 1140 Series indoor access points have a sleek design that blends into enterprise environments, and they can be powered with standard 802.3af Power over Ethernet.

Whether you're deploying standalone access points in a branch office or a comprehensive wired and wireless architecture, the 1140 Series offers excellent performance and interoperability with 802.11n standard devices certified by the Wi-Fi Alliance to make your wireless network flexible, scalable, and fast.

The Aironet 1140 Series is part of the Cisco Unified Wireless Network, a comprehensive solution that unifies the wired and wireless network to:
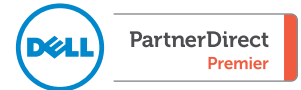

- Deliver a common set of services and applications
- Provide a single, standardized experience for any mode of network connectivity

Armed with an internal antenna, the Aironet 1141 Access Point maintains a clean, modern look.

Protection meets performance

Dell SonicWALL TZ 215 Wireless-N TotalSecure 1 Year

The Dell™ SonicWALL™ TZ 215 is the highest performing, most secure Unified Threat Management (UTM) firewall available today. Along with protecting against a range of threats, it delivers the broadest mobile platform support for laptops, smartphones, and tablets.

High-performance security engine

The TZ 215 uses patented Reassembly-Free Deep Packet Inspection™ to examine traffic simultaneously across all ports without introducing latency.

Integrated intrusion prevention

A tightly integrated intrusion prevention engine protects against an array of application-layer exploits that target both servers and client machines on the network.

Dell SonicWALL Mobile Connect™

SonicWALL Mobile Connect, a single unified client app for Apple® iOS and Google® Android™, provides smartphone and tablet users superior network-level access to

corporate and academic resources over encrypted SSL VPN connections.

Dual-band wireless

Ideal for retail and office environments, dual-band wireless provides integrated 802.11a/b/g/n secure access over both the 2.4 GHz and the 5 GHz spectrums.

$1295 $1101 #9053122

The TZ 105 delivers full deep packet inspection in a flash, protecting against network bottlenecks.

Dell SonicWALL TZ 105 Wireless-N TotalSecure 1 Year

Perfect for small offices, home businesses, and small retail spaces, the TZ 105 TotalSecure Firewall provides intrusion prevention, anti-malware, and content/URL filtering for laptops, smartphones, and tablets.

- Up to 200Mb/s stateful throughput and 25Mb/s Unified Threat Management throughput
- Supports up to 8000 connections
- 802.11b/g/n single-band wireless
- Handles up to five Site-to-Site VPN tunnels

$575 $489 #9103784

Dell SonicWALL SonicPoint-Ni Dual-Band Wireless Access Point

Dell™ SonicWALL SonicPoint-Ni Dual-Band Wireless Access Points combine 802.11n and 802.11a/b/g wireless management with their award-winning line of firewall appliances to extend comprehensive security flexibly across wireless networks.

- Multiple-Input Multiple-Output (MIMO) technology utilizes internal antennas for added throughput and reliability
- Blazing-fast 40MHz channels and packet aggregation to support data rates of up to 600Mb/s on either 2.4GHz or 5.0GHz networks
- Supports Power over Ethernet (PoE) when power outlets are not readily accessible

$495 $283⁹⁹ #8185983

Video conference with crystal clarity

Logitech C920 HD Pro Webcam

With full 1080p HD video calling across Skype and 720p for most IM apps, the Logitech C920 gives you a truly face-to-face experience when you're continents away.

- Dual stereo mics capture your voice more naturally
- Uses H.264 encoding for a faster, smoother experience
- Captures stunning 15 MP still images

The C920's 20-step autofocus technology ensures razor-sharp video results.

only $115⁹⁹ #8981335

The adjustable extender base lets you set the camera at the perfect height.

Logitech BCC950 ConferenceCam

Make your video conferences more collaborative and productive with the BCC950 ConferenceCam. Combining 1080p quality, a fully duplexed speakerphone, and 180° motorized panning, it creates a fully immersive experience.

- Optimized for most Unified Communications applications, including Microsoft Lync, WebEX, and Skype
- Its noise-canceling mic lets your voice ring through
- 78° field of view and 180° pan captures everyone in the room

only $249⁹⁹ #9106327

IMPORTANT PCM POLICIES

We'll Beat Any Price or competitive promotion on any IBM, hp, Lenovo, Sony, Toshiba or Apple computer, hp printer or Microsoft product from any authorized reseller of their brand. We may require proof of reseller's pricing. Product must be in stock from the competition in order to qualify for the We'll Beat Any Price offer. The advertised or quoted item must be identical to the one offered by PCM and must be new in a factory sealed box. We reserve the right to limit quantities ordered. This offer does not apply to special bonus or free offers, grand openings, special purchases or buy, manufacturer or reseller rebates, close-outs, clearances, or to dealers' one-of-a-kind or other limited quantity offers. The offer is not valid on any advertising errors. Not open to dealers. Void where prohibited. On multiple-item quotes: "We'll Beat Any Price" applies to the price of the entire order, not individual line items. Offer applies to pre-taxed prices only. Offer valid only at time of purchase, no post sales qualify for the offer.

Ordering from PCM: PCM is always open with a qualified sales team to help you place an order and answer any questions you may have about products, product availability, order status, and customer service. Rebate coupons are not included with shipments but can be downloaded from www.pcmall.com/rebates.

Payment Method: We accept PCM Credit Cards, VISA, MasterCard, Discover, American Express and Diners Club as well as check and wire transfers. Purchase orders are accepted for corporate offices upon credit approval; contact a PCM Account Executive for details. Additional charges may apply. Your credit card is not charged for any items until they are shipped. Credit card orders shipped to locations other than your billing address may require additional verification. Make money orders and cashier, personal and business checks payable to PCM. Include applicable sales, use or other tax and shipping and processing charges. Send all mail orders and payments to: PCM Mail Order Dept. File 55354, Los Angeles, CA 90074-5354.

Sales & Use Tax: PCM charges sales, use or other applicable taxes on shipments to applicable states. If you are located in one of these states, but you believe your purchases are not properly subject to tax, please contact your PCM Account Executive for assistance at 1-800-554-9930.

Shipping Handling and Processing Charges: We ship by FedEx® or by UPS in the United States. We use DHL to U.S. Territories, Canada and other international locations. For APO and FPO addresses, we use U.S. Mail. Extra shipping and processing charges apply for Alaska and Hawaii. Shipping and processing charges may be based on average/estimated weights and may vary from actual shipped weight. Call for detailed shipping and processing charges. The shipping, handling and processing charges are designed to compensate our company for the services we provide that enable our customers the convenience of ordering from us and receiving delivery of our products, including but not limited to handling and processing your order, packaging and shipping your purchases, and providing you customer service and support, as well as overhead costs associated with these services. Shipping Handling & Processing Charges may vary. Call your Account Executive at 1-800-554-9930 to obtain the most current and competitive shipping charges, options, and specials. Same day shipping: Phone orders placed and credit approved by 10:00 p.m. (EST) weekdays for items in stock not requiring configuration for

delivery to the contiguous U.S. will ordinarily ship that same day via FedEx Standard. FedEx Standard provides delivery by 5:00 p.m. the next day in areas where available. Phone orders placed and credit approved by 8:00 p.m. (EST) on Saturday for items in stock not requiring configuration for delivery to the contiguous U.S. will ship that same day via FedEx Standard for Monday delivery. FedEx Priority provides delivery by 10:30 a.m. the next day and is available for an additional charge. UPS ground shipping is available. Because we cannot guarantee availability, please call us to confirm when the product is expected to ship. Call 1-800-554-9930 for further information. For all orders where no shipping commitment is made, we expect to ship within 30 days of the order date.

Prices & Availability: Because of the fast-moving nature of the industry, prices and availability are subject to change without notice. PCM is unable to issue price adjustments due to manufacturer price changes after date of original sale. Your PCM Account Executive will inform you when a product is not in stock and can tell you when we expect the product will be available. Anticipated delivery dates are based upon vendor supplied information and are subject to change.

Return Policy: PCM prides itself on a tradition of outstanding customer care and support. Our devoted team of account representatives understands that our customers are the hallmark of our enduring partnerships. It is important for our customers to understand the standards that have been established within our industry regarding the terms and conditions of a sale. The purchases of computers, peripherals, software, and other consumer electronics are subject to manufacturer restrictions which may be different from other product purchases you transact. Most of the products sold by PCM are subject to a manufacturer's warranty. The warranty provided by the manufacturer is the first place to look for assistance with difficulties that may accompany your purchase. To obtain information regarding manufacturer's warranties, please refer to the Web site below, contact us at the following e-mail address, or call us: 1-800-554-9930 warrantyinfo@pcm.com, http://www.pcm.com/pcm/information/product_support/mfr_warranty.asp. We encourage you to request information from any of our account executives about extending the service period on any of the products that you purchase. Most manufacturers offer a one year warranty on all new equipment. During the warranty period, you call the manufacturer to receive warranty service. The manufacturer will attempt to solve your problem via phone. If a situation extends beyond the manufacturer's service centers ability to resolve, please contact your PCM representative for further guidance.

Custom Configurations: No returns or refunds will be made for items that are special ordered for you or for unusual custom configurations of systems.

Apple Computer Products: Apple products are non-returnable: Apple Computer offers a one year warranty on all new equipment. During the warranty period, you may call 1-800-275-2273 to receive warranty service. Apple will attempt to solve your problem via phone. If they are unable to solve the problem, they will either dispatch a replacement or will direct you to the closest Apple service center. In most cases, contacting the 800 number is the most expedient manner to obtain warranty service on Apple equipment. If a situation extends beyond Apple or an Apple service center's ability to resolve, please contact your sales representative for further guidance.

Other Non-Returnable Products: Several manufacturers' policies and restrictions disallow product returns. The following manufacturer's products (not all-inclusive) are also not returnable to PCM: 3Com, IBM, Intel, HP, Toshiba, Adobe, Quark, Lenovo and Sony. Other manufacturers apply to this list, so please call us for the latest information. You will need to contact the manufacturer directly regarding return or replacement of these brands under their respective guarantees and/or warranties. Please contact us if you would like to obtain copies of the manufacturers' guarantees and warranties prior to purchase. Items with a money back guarantee from the manufacturer: Some items offer a Money Back Guarantee from the manufacturer (an "MBG"). In those instances, PCM will not accept product returns. You will need to contact the manufacturer directly regarding return of the product and policies regarding such return. Please contact us if you would like to obtain copies of manufacturers' guarantees and warranties, including any MBG, prior to purchase.

Television Returns: Returns of televisions 27" or larger are subject to the following restrictions:
- Upon delivery, please inspect the television carefully for damage while the shipper is still present. If you discover any damage, please refuse delivery and you will receive a refund of the purchase price, shipping and handling fees, and sales taxes (if any). You must sign the shipper's release form which acknowledges this return policy.
- If, after delivery, the television does not work, all returns, in-house servicing (if applicable), and warranty repairs are handled exclusively by the manufacturer. Televisions 27" or larger cannot be returned to PCM.
- You can obtain copies of warranties through PCM, or directly from the manufacturer.

Software: Opened software is not returnable. Unopened software, after 7 days of receipt of product, is also not returnable. All licensing sales are final.

Defective Software: Defective software may be returned within 7 days of invoice date only for exchange of the same title. Original shipping charges are not refundable. Shipping charges on returned software are the responsibility of the customer.

Damaged Shipments: If your shipment arrives damaged: You must note the damage on the carrier's delivery record in accordance with the carrier's policy, save the merchandise in the original box and packing it arrived in, and notify PCM immediately to arrange for a carrier inspection and pick up of damaged merchandise. If you do not notify PCM of damaged goods within the first 15 days of arrival, the regular return policy will override any claim of damage, and your purchase(s) will fall under all current manufacturer restrictions.

Defective/Dead on Arrival Non-Software Products: Certain products (excluding Apple and the product manufacturers listed above), after support from the original manufacturer has been received, may be approved for return by the technical support division of PCM. The return must be 100% complete, in original and resalable condition, with all original packaging, manuals, registration card(s) and software. Original shipping charges are not refundable. Shipping charges on returned products are the responsibility of the customer. PCM will match the shipping method and pay for shipping charges on replacement or exchange products. All late, non-defective, and/or incomplete returns are subject to minimum 15% restocking fee.

How to Return Products: Obtaining an RA Number: Please contact your PCM Account Executive within 15 days of purchase for a Return Authorization (RA) number before returning your product to PCM. No returns of any type will be accepted without an RA number. For faster service, please have the following information on hand when calling for an RA number: customer name, order number, item number, serial number and the reason for the return.

Shipping Charges: Original shipping charges are not refundable. Shipping charges on returned products are the responsibility of the customer. PCM will match the shipping method and pay for shipping charges on replacement or exchange products. We strongly recommend you fully insure your return shipment in case of loss or damage. All refused orders will be subject to a restocking fee. Shipping charges are not refundable. In addition, refused orders may be subject to additional shipping charges to cover the cost of returning the products to PCM. A minimum restocking fee of 15% may be applied to products returned as defective that test to be operational upon return. Additionally, any return that has missing accessories or is incomplete in packaging will be subject to the minimum 15% restocking fee.

Typographic, Photographic and Technical Errors: Although we do our best to achieve 100% accuracy, occasionally errors and inaccuracies do occur. Should you encounter an error or inaccuracy, please inform us so it can be corrected. Products and packaging depicted may differ from stock available at the time of shipment. We reserve the right to substitute equivalent items. If an error is made and a product is listed at an erroneous price, PCM may, at its discretion, refuse or cancel any orders placed at the incorrect price. If an order has been confirmed and charged to your credit card at the incorrect price, PCM shall have the right to immediately issue a credit in the amount of the incorrect price.

Warranty Disclaimer and Limitations on Liability: PCM passes through to its customers all manufacturers' warranties and guarantees that are provided for the products it sells which may be passed through to its customers. PCM makes no additional or independent warranties. To the full extent permissible by applicable law, PCM disclaims all warranties, express or implied, including, but not limited to, implied warranties of merchantability and fitness for a particular purpose. PCM shall under no circumstances be liable for special, incidental, consequential (including lost profits or opportunities) or punitive damages, even if it has been advised of the possibility of such damages. The maximum liability of PCM for all damages shall be limited to an amount not to exceed the purchase price of the product. Likewise, PCM will not be liable for any damages of any kind arising from the use of its catalog or Web site, including, but not limited to direct, indirect, incidental, punitive and consequential damages. All merchandise is sold "as is". Please check manufacturer packaging and materials for compatibility. PCM makes no warranty as to the performance of any merchandise sold. We are not responsible for system downtime, lost data, etc. This disclaimer by PCM in no way affects the terms of any applicable manufacturers' warranties or guarantees. PCM will provide copies of such warranties and guarantees upon request by calling 1-800-554-9930. Certain state laws do not allow limitations on implied warranties or the exclusion or limitation of certain damages. If these laws apply to you, some or all of the above disclaimers, exclusions or limitations may not apply to you, and you might have additional rights and remedies that vary from state to state.

Disputes: You agree that any claims against PCM relating in any way to your purchases from PCM shall be submitted to confidential arbitration solely in Los Angeles, California, and you agree and submit to such jurisdiction and venue as exclusive and proper. The arbitrator's award shall be binding and may be entered as a judgment in any court of competent jurisdiction. To the fullest extent permitted by applicable law, no arbitration under this Agreement shall be joined to an arbitration involving any other party subject to this Agreement, whether through class arbitration proceedings or otherwise. In any such arbitration, the parties shall be responsible for their own costs, expenses and attorney's fees. In the event that this arbitration provision is unenforceable, you further agree any litigation regarding this agreement or any transaction shall be brought in the state or federal courts located in Los Angeles County, California, and you hereby agree and submit to such jurisdiction and venue as exclusive and proper.

Governing Law: Transactions between you and PCM, and any disputes arising between you and PCM related to any interaction between you and PCM, including but not limited to claims relating to the content of our catalogs and Web site, shall be governed by and

construed in accordance with the laws of the State of California without regard to the laws regarding conflicts of law. If any provision of this agreement shall be unlawful, void or for any reason unenforceable, then that provision shall be deemed severable from this agreement and shall not affect the validity and enforceability of any remaining provisions.

Title—Risk of Loss: Title to items being purchased passes from PCM to purchaser at the time of shipping. Customer takes on full liability for safety and validity of delivery address given to us at the time of purchase. PCM will not incur any forwarding costs on shipments. PCM shall not be responsible for damages or delays resulting from Acts of God, war, riot, seizure, terrorist activities, embargo or other acts or events outside of the reasonable control of PCM.

CPU Purchases: Unless otherwise specifically indicated, monitors, speakers and printers pictured in the materials that we publish are sold separately on desktop or mainframe computers.

Third Party Service Contracts: PCM is a reseller of various service contracts issued by and performed by third party service providers. We are not the providers of the services described in those contracts and the third party service provider is the only party responsible for performing, or arranging for performance, of those services. You agree that the third party service provider is solely responsible for fulfillment of the service obligations and you agree that you will look only to the third party service provider for any loss, claims or damages arising from or relating to the purchase and performance of those services. You also agree to release PCM from any and all claims arising from or relating to the purchase and performance of the services to be provided by the third party service providers. In some states, those services may be subject to sales tax. To the extent that such taxes are collected by PCM, they are collected solely on behalf of the issuer of the service contract in PCM's capacity as an independent sales agent for the service provider.

Additional Information: PCM policies are subject to change without notice. We do our best to ship all orders as rapidly and accurately as possible. However, PCM is not liable for late or delayed shipments or system failures. Title to items being purchased passes from PCM to purchaser at the time of shipping. If you purchase items for export, you must obtain from the Federal government certain export documentation. Terms of PCM's agreements with numerous vendors in the catalog forbid us from exporting product. Some products are not available for sale to schools. All trademarks and registered trademarks are used to benefit of their respective owners.

Right of Offset: At any time that an amount is due PCM, PCM shall have the right, without prior notice, to set off and apply any amounts otherwise owed by PCM to you, to any amounts owed to PCM by you, in all cases.

Promotions and Pricing: Promotional offers cannot be combined. Please check individual promotion details for ending date and other restrictions or contact your PCM Account Executive for details. If an ending date is not specified within promotion details, the offer expires 4/30/13. Prices, specifications and promotional offers are subject to change without notice and are limited to stock on hand. Although we do our best to achieve 100% accuracy, occasionally errors and inaccuracies do occur. Should you encounter an error or inaccuracy, please inform us so it can be corrected. Products and packaging depicted may differ from stock available at the time of shipment. We reserve the right to substitute equivalent items.

Electronic Waste Recycling Fee: Effective January 1, 2005, the State of California is requiring that we collect an Electronic Waste Recycling Fee from all taxable customers that purchase a qualifying product and have the product shipped to a California address or pick up the product within the state of California. Qualifying products are all displays, CRTs, plasmas and LCDs, referred to as CEDs, covered electronic devices.

Software Installations: The customer gives PCM permission to accept all software licenses on their behalf for any custom software installation.

Mandatory Arbitration: THIS SITE, OR THE PURCHASE OR SALE OF ANY PRODUCTS OR SERVICES, WILL BE RESOLVED BY FINAL, BINDING ARBITRATION, INSTEAD OF IN COURT, except that (a) you may take claims to small claims court, if they qualify for hearing by such court, and (b) if you fail to timely pay amounts due, we may assign your account for collection and the collection agency may pursue such claims in court limited strictly to the collection of the past due debt and any interest or cost of collection permitted by law or the Agreement. This agreement to arbitrate extends to claims that you assert against other parties, if you also assert claims against us in the same proceeding. **THERE IS NO JUDGE OR JURY IN ARBITRATION, AND COURT REVIEW OF AN ARBITRATION AWARD IS LIMITED.** For all disputes, you must first send a written description of your claim to our Customer Service department. You can contact our Customer Service department by email (customerservice@pcm.com) or U.S. Mail (PCM, 1940 E. Mariposa Ave., El Segundo, CA 90245). We each agree to negotiate in good faith to settle your claim or dispute. If we do not reach agreement within 30 days, you may pursue your claim in arbitration, or in small claims court as described above. To pursue your claim in arbitration, you must serve our registered agent with an arbitration demand. Our registered agent can be served at The Corporation Trust Company-1209 Orange Street, Wilmington, DE, 19801. The arbitration will be administered by the American Arbitration Association ("AAA"). The AAA's Supplementary Procedures for Consumer-Related Disputes will apply, as modified by this Agreement. The AAA rules are available at www.adr.org <http://www.adr.org> or by calling 1-800-778-7879. You will pay your share of the arbitrator's fees except: (a) for claims less than $25, we will pay all arbitrators' fees; and (b) for claims between $25 and $1,000, you will pay $25 for the arbitrator's fee. You and we agree to pay our own other fees, costs, and expenses including those for counsel, experts, and witnesses.

You and we agree that this Agreement involves interstate commerce and, despite the choice of law provision in Paragraph 21, the Federal Arbitration Act and federal arbitration law govern arbitrations under the Agreement. An arbitrator may only award as much relief as a court having jurisdiction in the place of the arbitration, limited to the same extent that a court would limit such relief and consistent with the provisions of the Agreement, including the limitation of liability in Paragraph 18. An arbitrator may order injunctive or declaratory relief (so long as that injunctive or declaratory relief does not apply beyond your dealings with us) or summary judgment under applicable law. An arbitrator may not award relief in excess of or contrary to what this Agreement provides, except that the arbitrator may award on an individual basis damages required by statute and may order injunctive or declaratory relief pursuant to an applicable consumer protection statute.

Class Action Waiver: YOU AND WE ACKNOWLEDGE AND AGREE THAT WE EACH WAIVE ANY RIGHT TO PARTICIPATION AS A PLAINTIFF OR AS A CLASS MEMBER IN A CLASS ACTION. Neither you nor we may be a representative of other potential claimants or a class of potential claimants in any dispute, nor may two or more individuals' disputes be consolidated or otherwise determined in one proceeding. This class action waiver applies if you bring your claim in arbitration and if you bring your claim in small claims court. **IF A COURT OR ARBITRATOR DETERMINES THAT YOUR WAIVER OF YOUR ABILITY TO PURSUE CLASS OR REPRESENTATIVE CLAIMS IS UNENFORCEABLE, THE ARBITRATION AGREEMENT WILL NOT APPLY AND OUR DISPUTE WILL BE RESOLVED BY A COURT OF APPROPRIATE JURISDICTION OTHER THAN A SMALL CLAIMS COURT. SHOULD ANY OTHER PROVISION OF THIS ARBITRATION AGREEMENT BE DEEMED UNENFORCEABLE, THAT PROVISION SHALL BE REMOVED, AND THE AGREEMENT SHALL OTHERWISE REMAIN BINDING.**

Jury Trial Waiver: YOU AND WE ACKNOWLEDGE AND AGREE THAT, if a claim proceeds in court rather than through arbitration, **WE EACH WAIVE ANY RIGHT TO A JURY TRIAL.**

Stay connected with Collaboration

As businesses move to decentralized work environments, they need solutions to support easy access to information and stronger communication. Collaboration in the IT sense of the word refers to harnessing and adapting today's technology and systems to better facilitate the interaction between individuals and teams to create something of value.

Collaboration solutions seek to integrate many of the business systems people use on a daily basis — phone, voice and video conferencing, messaging, calendars, and presence — to make them less time consuming to operate and easier to manage. Solutions like IP, soft and mobile phone products, tablets, voice and video conferencing, and digital signage software can all aid in streamlining collaboration.

How will Collaboration help me?

Chances are good that your business has already taken some steps to incorporate internal and external communications with solutions like Microsoft Exchange Server. But you may not be realizing the full value of your existing infrastructure investment. Our team of Services experts — along with experienced partners like HP, Cisco, Microsoft, VMware, and more — can provide your business with a complete Collaboration solution around:

- **Voice/IP Systems:** Centralizes data and voice communications on a single Voice-over-IP (VoIP) network
- **Unified Communications:** Calls, email, instant messages, video conferences all flow into a single in-box
- **Presence:** Allows users to indicate their current status as available, unavailable, out of the office, and more
- **Virtual Conferencing:** HD video, web chats, and digital whiteboards are smart alternatives to in-person meetings

- **Mobility:** Mobile phones & land lines operate like a single device with integrated messaging, conferencing, and more
- **Digital Signage:** Send consistent communications including real-time video to viewers — even across multiple locations at the same time
- **Customer Care:** Keep clients happy with a conduit to "skills-based" routing and escalation to the right resources for the right answers

Collaboration is fundamental to doing business now and into the future. Users are empowered to work productively with their colleagues and clients while lowering costs for the company, increasing efficiency, and boosting revenue.

How can PCM help me get started?

Technology is changing the way we do business, and relying on a trusted partner to assess your current infrastructure, identify ways to improve collaboration within your existing business applications and to architect a comprehensive solution is the key to better decision making and new business opportunities. PCM, along with our solutions partners, can put our Collaboration expertise to work for you to ensure high-quality service, security, and technology you can rely on. Working in concert with our team of certified Services experts, your PCM Account Executive can provide a wide range of Collaboration services, including:

- Assessment and Design Services
- Configuration, Installation, & Deployment Services
- Product Lifecycle Services
- Service Desk Support
- Training Services

Adobe® Creative Cloud™ for Teams
A better way of working together.

Imagine if your team always had the latest tools. Imagine if they could save time by seamlessly sharing files and folders. That's Adobe® Creative Cloud™ for teams. You get the entire collection of CS6 tools and exclusive updates, along with lots of team-specific features that make working together — and managing licenses — easier than ever. All for one affordable price.

The world's best tools

Equip your entire team with every Adobe® Creative Suite® 6 desktop application, plus Adobe Muse,™ Photoshop® Lightroom® 4, Acrobat® XI, Adobe Edge Tools & Services, and more. And everyone gets immediate access to new applications and features once they're released.

Publish apps and websites

Explore new outlets for your content with the publishing services included with Adobe Creative Cloud.™ Create and host websites, deliver stunning apps to the iPad device, and more.

Share widely. Collaborate privately.

Now it's easy to keep everyone on the same page. Share files or folders with one person or with a larger team. The latest industry-leading security and encryption technology is built right in.

The files you need. Where you need them.

Work on files at the office, from home, on your tablet. Just save to the Creative Cloud Files folder on your desktop, which includes 100GB per person, and start sharing between devices and team members, or with clients.

Centralized administration

Easily manage and scale your team's software with centralized purchasing and license management tools. You and your designated administrators can quickly add, assign, or transfer licensed seats, and track usage by team members.

Expert support

With Creative Cloud for teams, your team members get direct access to our product experts. Just schedule a one-on-one session — up to two a year per member. It's like having your own Adobe expert right down the hall.
