

PCM THE RIGHT
TECHNOLOGY,
DELIVERED

**MAKING IT
WORK FOR YOU™**
NO MATTER HOW COMPLEX

Our Mission: To WOW You!

At PCM, we're a family of doers, dedicated to making your life easier. Need help beefing up your office's online security? Don't have time to set up tablets and laptops for the team? We've got your back. For 30 years, PCM has been in the business of making IT work for you. We partner with leading IT brands, curating the latest tech products, and developing strategies to make your business's IT run smoothly in the background. Focus on your business success — leave the IT to us.

CUSTOMIZED IT SOLUTIONS DELIVERED GLOBALLY

PCM offers exceptional procurement and logistics for a broad array of IT products. We provide consulting and implementation services delivered through more than 1,400 service engineers. With PCM, you have a rich array of managed, professional and operational services to lower your organization's operating costs, increase business agility, improve overall efficiency, and help you succeed in today's global economy.

Since 1987, PCM has been a leading provider of IT products, services, and solutions to businesses, government agencies, educational institutions and healthcare facilities. We provide access to more than 300,000 IT products and the largest portfolio of technology services, including assessments, deployments, and management. Whatever your IT goals are, we have the experience and skill to make them a reality.

No matter where your business is located, PCM provides best-in-class IT services. Along with our main campuses in California, Illinois, Ohio, Georgia and Virginia, we have satellite offices in key locations throughout the United States, Canada and the United Kingdom. We're able to deliver national reach, while treating every client like our next-door neighbor.

EVERYTHING YOU NEED TO GET INTO THE CLOUD

The cloud can be a challenging and confusing place, but PCM's team of experts makes it easy. With our different cloud options, we provide the power of choice while helping you every step of the way. To make the switch painless, PCM offers a Cloud Readiness Assessment that includes a migration plan and helpful suggestions on what products and services will work best for your situation and environment. pcm.com/cloud

WHAT WE OFFER: CLOUD INFRASTRUCTURE SOLUTIONS

PUBLIC CLOUD

PCM's Public Cloud IaaS provides a private, secure network that connects all data centers — perfect for customers who need a highly available configuration.

PRIVATE CLOUD CONSULTING

Our expertise in the private cloud space enables you to deploy IT resources with specific requirements that are tailored to your business needs, along with providing you a simple-to-deploy and easy-to-manage solution.

HYBRID CLOUD INTEGRATION

PCM's Hybrid Cloud Solutions are designed to combine the best of all worlds: public cloud, private cloud and dedicated servers working together in any combination. PCM's hybrid cloud delivers better reliability, optimized performance, and flexibility — all at a lower cost.

CLOUD APPLICATIONS

SOFTWARE-AS-A-SERVICE (SaaS)

Remove the upfront software licensing costs, the installation, and the support of end-user applications by moving to the cloud. PCM provides easy access to a wide range of cloud applications that are both highly scalable and always up-to-date. Eliminate wasted resources by taking advantage of PCM's monthly pay-as-you-go option, which enables you to pay only for what you use.

BUSINESS AGILITY BEGINS IN THE DATA CENTER

PCM takes pride in offering data center and networking services that amp up the performance of your business. We help you scale, reduce IT management and maximize your daily efficiency. Whether physical, virtual, converged or software-defined, our talented engineers can design a plan around your specific needs. Plus, we partner with top-brand manufacturers that will always provide you the latest technology. PCM Data Center solutions keep it agile, to tackle the most complex challenges.

HOW PCM MAKES THE DATA CENTER WORK FOR YOU:

MARKET AND INDUSTRY KNOW-HOW:

We're fluent in technology for the Healthcare, Public Sector, Manufacturing, Finance, Retail, Hospitality industries and more.

INTEGRATED APPROACH:

Our engineers focus on delivering the right technologies, coupled with customized components.

ADVANCED CAPABILITIES:

PCM's best-in-class capabilities bring together proven delivery methodologies, innovative solutions, management, and pure industry know-how.

VENDOR AGNOSTIC:

We have solid relationships with all the leading technology providers, but we never recommend a product or brand unless it's the best fit for you.

CLIENT-FOCUSED:

Our engineers focus on producing the results you strive to achieve, and preventing the same problems from recurring.

NEXT GENERATION NETWORK SOLUTIONS

Your network is the critical infrastructure which must provide scale, resiliency, quality of service and security to connect your end point devices. Our team of certified engineers provides the expertise to analyze, design, implement and support networks that scale to tens of thousands of users in most complex environments like large stadiums and cruise ships. At PCM, we provide Next Generation Network Solutions to meet your needs for today and tomorrow!

PCM NEXT GENERATION NETWORK SOLUTIONS INCLUDE:

- Core Networks
- Collaboration
- Campus Networks
- Network Security

Your network should be highly available, redundant and efficient in order for your employees to be productive.

We have a team of experts ready to provide network solutions to your exact specifications.

Sit back, relax, and let PCM handle the rest.
pcm.com/networking

PCM offers a complete lifecycle methodology using certified engineers to future-proof your network:

- **ASSESS**
PCM documents deficiencies and communicates opportunities for improvement.
- **DESIGN**
PCM provides a future state roadmap for your network to meet your business imperatives.
- **DEPLOY**
PCM stages, configures, racks, stacks, cables, installs and cuts over with project management.
- **MANAGE**
PCM provides robust tools and 7x24 resources to proactively manage your network.

SECURITY, PEOPLE AND TECHNOLOGY INTEGRATED

YOU NEED SECURE DATA. WE BUILD SECURE DATA CENTERS.

Reallocating the energy of your IT and security team to the activities that impact your bottom line starts with working with the security partner that can take on the burden with ease. We'll evaluate your current status, determine your go-forward direction, and bring your security posture to a strong, healthy operating state.

The PCM Difference

It's time to get the most out of your IT and security team by redirecting their efforts to the mission-critical and centering your security strategy on its home base: the data center. The biggest difference between PCM and other providers is that we build secure data centers from the ground up and embrace integrated platforms. The PCM promise to you is that we'll treat your environment all-inclusively. pcm.com/security

What Makes PCM Security Worth It?

- Trust in industry-leading security solutions.
- Total assistance, support, and optimized security operations.
- Depth of experience and resources securing network, infrastructure, and storage projects.
- Proven capability securing virtualized environments, private, public and hybrid cloud solutions.

GLOBAL PROCUREMENT AND LOGISTICS

PCM's Global Procurement and Logistics division assists organizations with their global procurement and logistics needs. With the ability to source and deliver IT equipment and services into more than 130 countries worldwide, we are able to architect global supply chain solutions to meet our customers' needs. Our objectives are to provide our customers visibility of their supply chain while reducing costs and lead times, and improving efficiencies. pcm.com/globalservices

 - Analytics to drive your revenue
 - Location services

EXPERT ADVICE EVERY STEP OF THE WAY

Running a business is a full-time job. Don't waste time worrying about your IT. PCM has the expertise and experience to handle the management of your full IT infrastructure, from the most complex environments to the simplest endpoint devices. Our services portfolio spans the entire information technology lifecycle – from the initial design to implementation and continuing management. We also provide managed services and support for the data center, networking, applications, multi-lingual service desk, break-fix maintenance, remote monitoring, field support, staff augmentation and more. Our integrated Global Operations Centers and localized teams are always at your service 24x7x365.

PCM offers a single point of contact who is knowledgeable about business issues and the full IT asset lifecycle. We provide a better roadmap to solutions that achieve your outcome — in addition to solving technical challenges. PCM's aim is to engage the most appropriate analysts and resources to achieve your business goal.

PCM provides one of the industry's most competitive services portfolios. We have a proven history of providing managed services with strong offerings in all areas. One key to our success is our continued focus on an outcome-based delivery model. With PCM, you get innovation and quality of service every time. pcm.com/consulting
