Get more done
Revolutionary laptop

Surface Pro 3 delivers the power, portability, and productivity you need.

Work anywhere
Multi-position Kickstand

The integrated Kickstand now features multiple positions so you can work comfortably whether you’re on the plane, at your desk, or in front of the television.

Totally versatile

Large screen, light form
The 12” screen makes it easy to get work done - and its just 1.76 lbs light. At just 36” thin, Surface Pro 3 is the thinnest laptop on the market.

Dock and do more
Convert into a desktop workstation with optional Docking Station for Surface Pro 3, instantly connecting to power, external monitors, and full-size keyboards.

Write naturally
With a fountain pen-like experience, Surface Pen lets you annotate Word and PowerPoint, take notes, write emails, and sign papers.

HP ink is ready for the enterprise

Introducing

The new HP Officejet Enterprise Color Flow X585z Multi-Function Printer

Make no compromise. Powered by HP PageWide technology, the HP Officejet Enterprise Color MFP X585 series offers the features and reliability you expect - at up to twice the speed and half the cost per page of color lasers.

Tackle color printing and high-volume jobs, page after page. With the same security solutions seamless integration and simple management as HP LaserJet MFPs, this device is ready for the enterprise.

Cut costs in half
Reduces energy use because it's built without a fuser to consume less energy than many color lasers in its class.

Laser-like duty cycle
Equipped to handle big jobs with large supply capacity, large-capacity paper trays, and auto duplex.

Revolutionary speeds
HP PageWide Technology processes pages in a single pass for speeds up to 70 pages per minute at half the cost of a laser printer.

PCM-G | Contact your PCMG Account Executive today to learn more about the HP OfficeJet Enterprise Color X585z Multi-Function printer or call **1-800-625-5468.**

Print with manageability, productivity, and mobility

HP LaserJet Pro 400 M451nw color printer

Now you can produce professional-quality color documents with ease and fast speed. Seamlessly integrate into your office or wireless home network. HP features help you save paper and energy, and print from virtually anywhere with HP ePrint.

Produce bold text and smooth color with HP ImageREt 3600 and Original HP LaserJet toner cartridges. You can print documents affordably. Get the same black cost per page as a black-and-white HP LaserJet printer and Reduce energy use with HP Auto-Off Technology. Also save with Instant-on Technology.

- Up to 21ppm color and B&W print speeds*
- 600 x 600dpi maximum resolution
- 40,000-page monthly duty cycle
- 2 line LCD display
- HP ImageREt 3600 resolution technology
- 802.11b/g/n Wi-Fi, Ethernet, and USB 2.0

only $249.99 #9003887
After $150 instant rebate. Ends 08/31/14.

Set a new pace for your print load

HP Officejet Pro 8620 e-All-in-One printer

Print eye-catching color marketing materials for up to 50% lower cost per page than lasers. Cruise through high-volume printing tasks and help keep business moving with easy mobile printing!

only $229.99 #13065639
After $70 instant rebate. Ends 08/31/14.

Professional color for less than lasers

Count on a better value for frequent printing with Original HP high-capacity individual ink cartridges. Every page will look professional, using Original HP pigment inks for vibrant, durable prints. Also creates borderless, double-sided materials for all your business needs.

Print where you want, when you want

Allows you to print via any NFC enabled smart phone, tablet or laptop. Don't worry about your wireless print security because the Offejet Pro 8620 gives you the option to print wirelessly without any network or router access required. Plus you can easily print documents by sending an email to your printer using innovative new HP ePrint technology.

- Prints, copies, scans, and faxes
- Up to 34ppm color and B&W print speeds (vary with use)
- 4800 x 1200dpi maximum resolution
- 30,000-page monthly duty cycle
- 50-page auto document feeder
- Up to 1200 × 1200dpi optical scanning resolution
- 802.11b/g/n Wi-Fi, Ethernet, and USB 2.0

Your compact print solution

High performance UPS for premium power protection and peace of mind

APC by Schneider Electric

1 kW APC Smart-UPS 1500 LCD - UPS

The most popular UPS in the world for servers, storage and networks. Trusted to protect critical data and equipment from power problems by supplying clean and reliable network-grade power, Smart-UPS® TM models have long been considered the benchmark for all network and server UPSs. Smart-UPS have extremely high efficiency at low, medium and high load levels making them ideal for today's multi-core or virtualized servers that have varying load consumption.

- Line-interactive UPS
- DB-9 RS-232 Serial, USB ports
- 1.33 kVA/980 load capacity

Take your sensitive data with you on the go

LACIE

Features an automatic Eco mode that lowers the power consumption by up to 40% when not in use.

LaCie Rugged Tripple Hard Drive

The LaCie Rugged Triple Hard Disk provides universal connectivity: you've got the superior speeds of USB 3.0 and FireWire 800, and full backward compatibility with FireWire 400 and USB 2.0.

You can transfer a 700MB video file in less than 7 seconds with USB 3.0, compared to 25 seconds with USB 2.0. With the Rugged Triple's 7200rpm model, you can even achieve speeds up to 110MB/s. Additionally, you can use the LaCie Mac USB 3.0 Driver to improve data transfer speed on your computer.

- 500GB storage
- FireWire 800 and USB 3.0
- Shock resistant rugged design, includes hardware encryption and automatic backup
- Ultra-compact and portable
- Limited 3 year warranty

~~$129.99~~ **$119.99** #8857441

drobo

The perfect private cloud storage device for syncing, sharing, accessing, and protecting your digital life.

Drobo Connected Data Transporter 2TB Private Cloud Storage

Allows you to access digital life from any computer or mobile device, back it up, collaborate on it and sync it.

- Pre-populated with 2TB of storage capacity
- Supports any 2.5" SATA HDD
- Completely private with encrypted transfer

only **$349** #9507449

WD

WD 1TB My Passport Ultra Portable Drive

Compact design, high capacity and a choice of local or cloud backup. It's Durable, shock tolerant, and reliable.

- Blazing fast USB 3.0 port
- Ultra-portable at 12.8mm thick
- Backs up to drive or to the cloud with Dropbox

~~$119.99~~ **$99.99** #9751791

Make the switch to greater power and performance

HP 2920-24G-PoE+ Switch

Offers you flexible and easy-to-deploy uplinks and stacking coupled with static and RIP routing, robust security and management, enterprise-class features, free lifetime warranty, and free software updates.

The 2920 switch series is a cost-effective, scalable solution for customers who are building high-performance networks. These switches can be deployed at the enterprise edge, in remote branch offices, and in converged networks.

- 20 RJ-45 autosensing 10/100/1000 PoE+ ports
- Duplex: 10BASE-T/100BASE-TX: half or full; 1000BASE-T: full only
- 4 RJ-45 dual-personality 10/100/1000 PoE+ ports
- IEEE 802.3 Type 10BASE-T, IEEE 802.3u Type 100BASE-TX, IEEE 802.3ab Type 1000BASE-T, IEEE 802.3at PoE+
- 1 dual-personality (RJ-45 or USB micro-B)
- 2 module slots • 1 stacking module slot

only **$1649.99** #9606666

Your maximum speed and storage solution

HP 3800-24G-PoE+-2SFP+ Switch

Fully managed Gigabit Ethernet switches. There are a total of nine switch models—a 24-port switch, a 48-port switch, a 24-port PoE+ switch, a 48-port PoE+ switch with either SFP+ or 10GBASE-T uplinks, and a 24-port SFP switch with 2 SFP+ uplinks

- 24 RJ-45 autosensing 10/100/1000 PoE+ ports
- Duplex: 10BASE-T/100BASE-TX: half or full; 1000BASE-T: full only
- 2 fixed 1000/10000 SFP+ ports
- 1 RJ-45 serial console port
- 1 RJ-45 out-of-band management port
- 1 stacking module slot

only **$4049.99** #8974862

HP 560 Wireless Dual Radio 802.11ac (AM) Access Point

HP 560 802.11ac Dual Radio Access Points Series brings 1.3 GbE performance, faster application processing and increased range to 802.11 clients. Ideal for dense client environments and high-bandwidth applications

- 1 RJ-45 autosensing 10/100/1000 port
- Indoor, plenum rated; Includes two ceiling mounting clips
- 802.11b/g/n, a/n/ac • (3) 5 dBi 2.40GHz, (3) 7 dBi GHz
- IEEE 802.11 a/b/g/n/ac

Already running EVA and want to make the switch to 3PAR? HP makes it easy with their online import feature.

Growth in every direction

HP 3PAR StoreServ 7000 Storage Bases

With rich capabilities and non-disruptive scalability to four nodes, HP 3PAR StoreServ 7000 Storage eliminates compromises between affordability and Tier 1 resiliency by giving you both. It shares the same architecture and software stack with all other HP 3PAR arrays, so you'll not only get the world's most advanced storage platform, but you'll also be able to meet block and file storage needs today and object storage needs as they emerge. This may be the last primary storage architecture you ever need.

- One architecture and single stack from midrange to high end meets storage needs as they arise
- Mixed workload support increases your organization's consolidation opportunities
- Industry-leading thin technology cuts capacity requirement
- Shares management console with all HP 3PAR StoreServ

Storage solution that adapts to your changing business infrastructure.

HP Modular Smart Array 1040 Storage

HP MSA 1040 Storage offers many of the MSA 2040 features but at lower entry price points. ProLiant and BladeSystems administrators as well as IT generalists will find storage management tasks simple and intuitive.

- 28.8TB Raw capacity
- 8Gb Fibre Channel (2) Ports per controller
- MSA 1040 delivers up to 50% faster performance
- Integrated setup and management Web-based Interface
- Systems Insight Manager support included

only **$6429.99** #13008377

HP Modular Smart Array P2000 G3 Storage

Offers high-performance 8Gb FC, Combo FC/iSCSI, 6Gb SAS, 1Gb or 10GbE iSCSI connected arrays designed for efficient storage consolidation.

- High-performance storage array solution
- 2U rack-mountable server
- Offers the flexibility of 2 x RAID 8Gb Fibre Channel
- Hard drive array with 24 bays (SATA-300 / SAS-2)
- Contains dual active and active controllers, dual-ported drives, and redundant hardware components

only **$8379.99** #9780054

DATA CENTER MODERNIZATION

Modern data centers are expected to handle unprecedented work loads. To keep up with demands, turn to PCMG for custom Data Center Solutions.

The nature of the data center is changing. No longer is it viewed as just a necessary expense, data centers are now being perceived as having the potential to add value to overall functionality. Organizations are realizing that achieving this potential requires investment.

Upgrades designed to modernize are more than just the latest version of a technology already in place. These upgrades are vital improvements. Updating networking, servers, storage, power and cooling, and security devices and applications are all part of the data center conversion for:

- Virtualization
- Cloud
- Big Data
- Converged Infrastructure

Of these, Virtualization, both storage and server, is the most mature and popular of the technologies. Energy-efficient hardware is also popular and is growing. Converged infrastructure, cloud computing as a delivery model and Big Data analytics are being considered.

Organization size is just one factor that effects the organization's decision to move towards modernization. Some of the challenges that organizations face include inadequate budgets, lack of visibility into resource usage, and adapting new processes.

Because budgets are tight, IT departments are stretched thin leaving the organization vulnerable. Despite the many challenges, it is important to migrate and bring modernization with new capabilities and functionality that can deliver massive advantages.

Interestingly, organization size appears to have minimal impact on the benefits of data center modernization. In fact, a greater percentage of large organizations, compared to smaller organizations, face challenges in regards to inadequate budgets, lack of visibility into resource usage, and difficulty adapting to new processes. Despite budgetary constraints, however, any organization is likely to benefit from deploying the examined technologies, in particular server virtualization, storage virtualization, Big Data analytics and also converged infrastructure.

***PCMG can help** create a robust data center that handles both today's demands and tomorrow's technologies.*

How can PCMG help organizations modernize?

Modernizing the data center can be complicated. PCMG will work with you to plan, implement, and integrate a cost-effective, end-to-end solution backed by a highly skilled team of Services engineers, technicians, and project managers. Together with our leading solutions partners like HP, CISCO, APC, ORACLE and Dell, we can help you create a robust data center that handles your organization's rapidly changing demands like :

- Storage Solutions
- Networking Solutions
- Software Solutions
- Environmental Solutions
- Virtualization Solutions
- Cloud Hosting Solutions

Learn how PCMG can help you design, implement, secure, and manage your data center. Contact your dedicated Account Executive today.

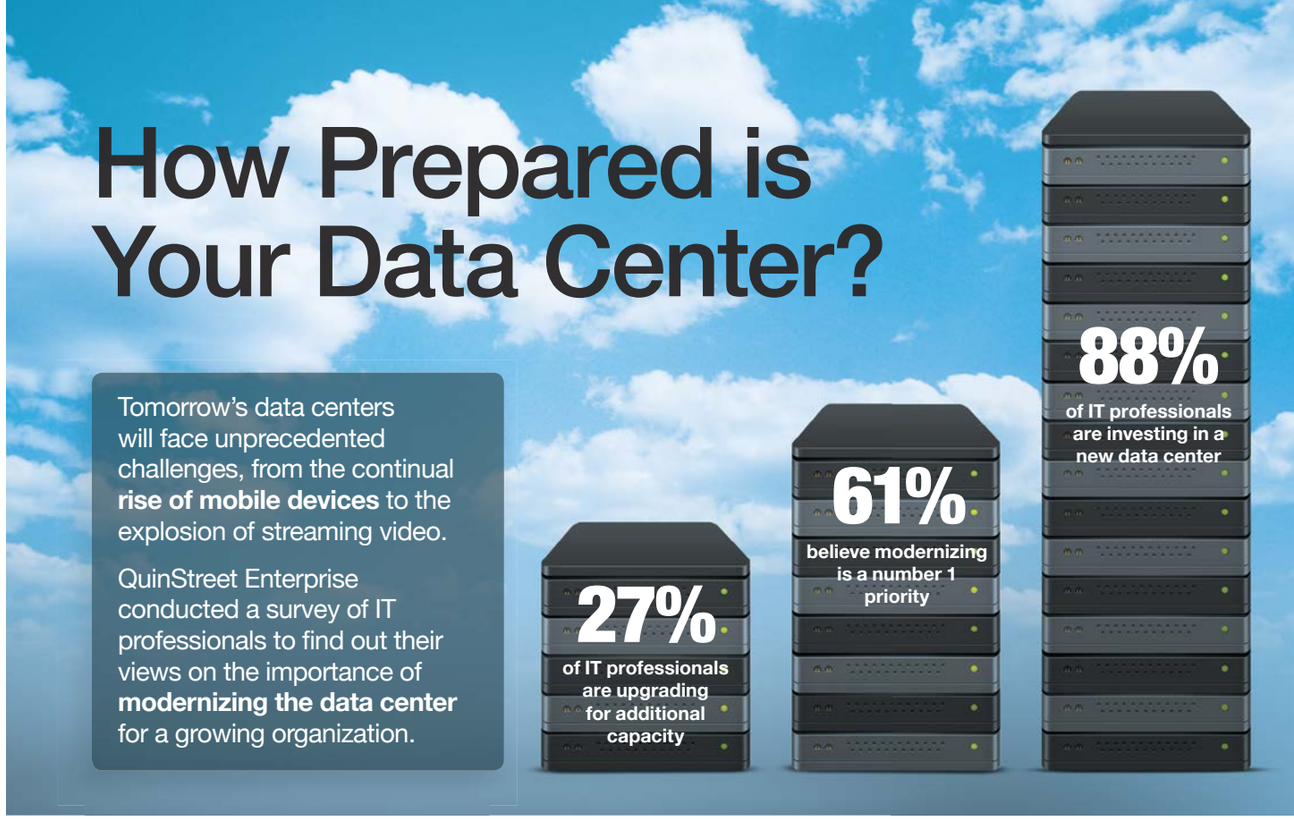
***QuinStreet Enterprise Executive Brief**. 2014 Data Center Outlook: Data Center Transformation – Where is Your Enterprise? 2013.*



High-speed Hardware for Accelerated Data Centers

Cisco 3925E Integrated Services Router

Cisco 3925E Integrated Services Routers (ISR) deliver highly secure data, voice, video, and application services to large branch offices.

HP ProLiant BL465c Gen 8 Blade Server

Balancing power and value, BL465c Gen 8 servers provide high core density combined with a broad memory footprint in a half-height form factor.

7.2TB EMC VNXe 3150 NAS

The EMC VNXe series redefines networked storage, giving organizations a combination of enterprise-class features, simplicity, and management efficiency.

SPARC T5-4 Server

Oracle's SPARC T5-4 server redefines the mid-range with a cost-effective, highly efficient cloud infrastructure platform for Oracle applications, Oracle Database, and middleware deployments.

Quantum SuperLoader 3

With 16 cartridge slots, StorageCare Guardian technology, and a built-in bar code reader, the SuperLoader 3 makes it easy and affordable to automate your backup processes.

PCMG holds a number of public sector procurement contracts.

Get compact performance in all dimensions

Cisco Gold Partner

The C260 M2 server has CPU enhancements for greater **performance, expandability, and security** — as well as reliability, availability, and serviceability (RAS) features.

Intel inside XEON

Cisco UCS C260 M2 Rack Server with Intel® Xeon® processor

The Cisco UCS C260 M2 Rack Server is one of the industry's highest-density, 2-socket rack server platforms. This important new building block in the Cisco Unified Computing System (Cisco UCS) portfolio offers compact performance for enterprise-critical applications.

Future-proof performance
Cisco UCS C260 M2 servers extend Cisco unified computing innovations — including Cisco Extended Memory Technology — to an industry-standard, rack-mount form factor. Plus, it is the first rack-mount server available anywhere with a built-in future migration path to unified computing, giving you the flexibility you need to handle the demands of today with an eye towards the dynamic needs of tomorrow.

Better performance, lower costs
For IT departments that are looking to increase compute performance, memory capacity, internal storage, or I/O capacity, the Cisco UCS C260 M2 server delivers on all fronts. This expandability allows you to decrease costly licensing fees by increasing performance without adding new CPU sockets. Applications that are memory-bound today will benefit from more than 1TB of addressable memory that the Cisco UCS C260 M2 server offers.

Key Features

- 10-core Intel® Xeon® processor E7-2870 (30MB cache, 2.40GHz)
- 128GB DDR3 SDRAM, expandable to 1TB
- 16 hot-swappable drive bays
- Quad-port Intel® Gigabit ET network adapter
- Two 1200W power supplies
- Includes RAID Battery Backup Unit, 2 x CPU Heatsink, rack rail kit
- Comes with 3-year limited warranty replacement and next business day response time

Call for Pricing! #9104165
#8831724 Cisco C260 M2 Rack Server: Open CPU Socket $2769.99

Oracle® Maximizes the Value of SPARC T5 Servers with Sun ZFS Storage Appliance

SPARC T5-2 Servers

Oracle's cutting-edge SPARC T5-2 server is an ideal platform for business-critical applications that demand an elite level of computational performance. This versatile, two-socket system provides extreme compute density with 32 cores and up to 512GB of system memory — all within a 3U enclosure.

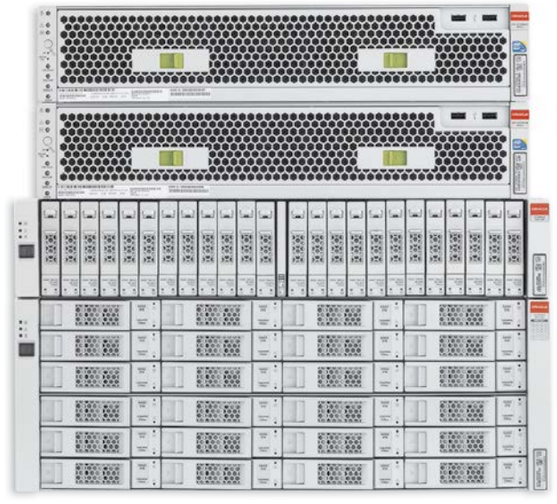
- World-record performance
- Unmatched price for the performance
- Supports Oracle Solaris, the most widely used UNIX OS for enterprise computing and cloud infrastructure
- Built-in virtualization with Oracle VM Server for SPARC
- Highest levels of reliability, availability, and serviceability
- Runs Oracle Solaris 11 and Oracle Solaris 10

With full support for Oracle Virtual Networking for data center fabric, the SPARC T5-2 reduces infrastructure complexity and cuts operating expenses.

Add an extra layer of intelligence to your storage systems with Sun ZFS

Oracle ZFS Storage ZS3-2

Performance, Efficiency, and Oracle Integration Oracle's application engineered storage system delivers extreme efficiency and better value, reducing cost, complexity, and risk while increasing performance.



The Sun ZFS Storage Appliance is Oracle's preferred NAS storage system with unified storage capabilities for enterprise tier-1 environments. It offers a rich set of enterprise-class data services, industry-leading performance, and Oracle Hybrid Columnar Compression for Oracle Databases.

These systems also feature a comprehensive, intuitive user interface and analytics environment that offers unmatched ease of use and simplicity. This reduces operating expenses by dramatically reducing management time and complexity. Plus, the Sun ZFS Storage Appliance design automatically optimizes performance over storage tiers, delivering breakthrough performance and simplifying storage management.

- Engineered specifically for SPARC T5 servers
- Maximize return on Oracle software investments
- Extreme performance • High availability
- Superior price per performance and price per gigabyte
- Industry-leading Backup/Recovery performance
- Lower TCO than competitive systems

ORACLE Gold Partner

Introducing Proliant Gen8

HP's Industry's leading servers just got faster, smarter & more efficient!

An intelligent, highly scalable, efficient infrastructure is required to meet the challenges in the new style of IT. And once again HP is leading the way to meet these demands.

HP ProLiant servers, the world's most intelligent servers, just got faster, smarter and more efficient so your business can embrace this technology shift. The next wave of ProLiant Gen8 innovations are designed to deliver the intelligence necessary to optimize your data center and accelerate performance to support a wide range of complex IT demands from Cloud-based applications to Social Media, Big Data, and Mobility in a virtualized environment.

With an intelligent and efficient data center based on the leading HP Converged Infrastructure strategy, you can build a strong foundation for your business and protect your infrastructure investments. These customer-inspired innovations deliver real business results with a 5 month ROI, helping you transform your data center to better compete and grow your business today, while being ready for what's next.

Invest in your future today and start to realize the cost savings in your new style of IT in a few short months.

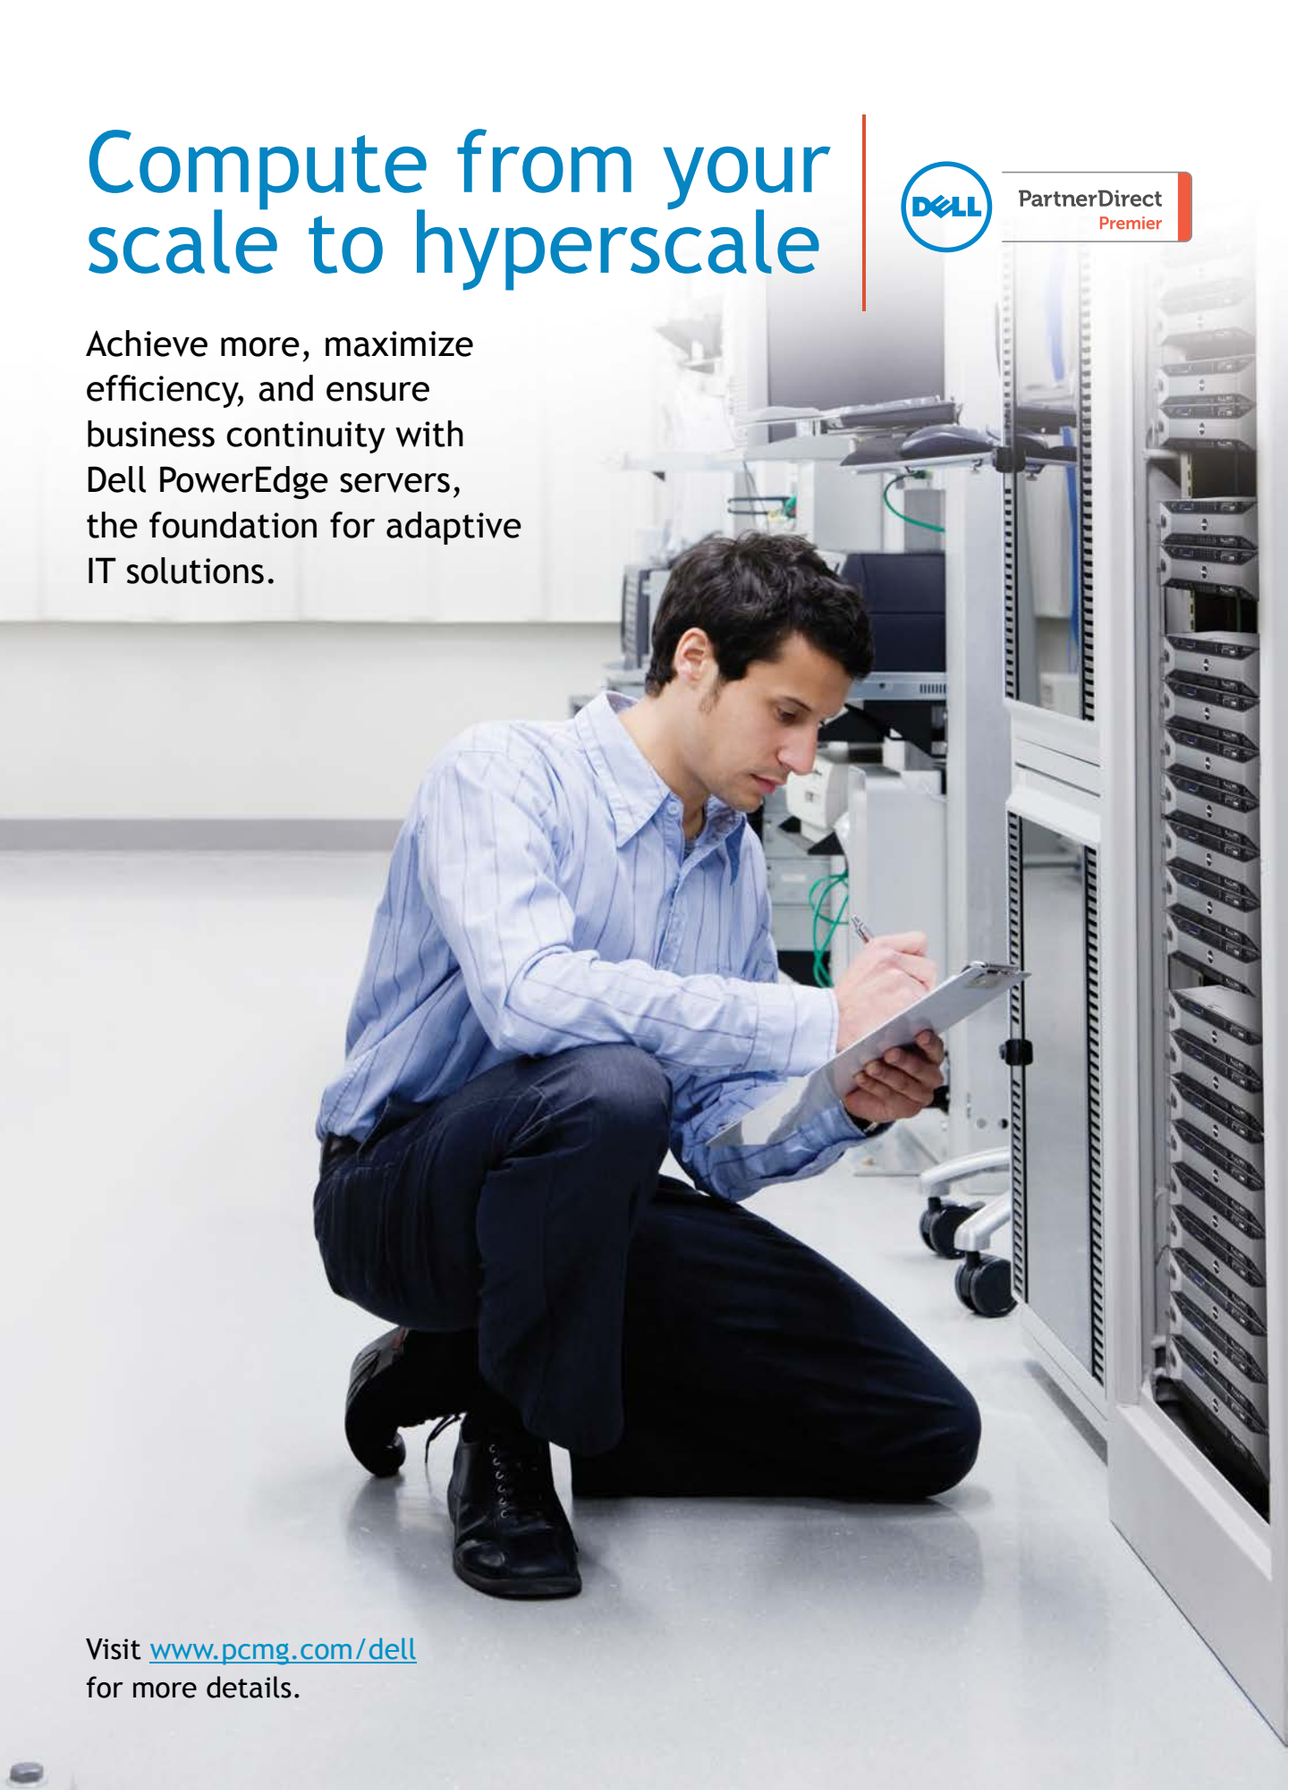
Compute from your scale to hyperscale

Achieve more, maximize efficiency, and ensure business continuity with Dell PowerEdge servers, the foundation for adaptive IT solutions.



Visit www.pcmg.com/dell for more details.

Dell PowerEdge VRTX

Integrates servers, storage, networking and management into a single chassis

The Dell™ PowerEdge™ VRTX is a powerful, scalable, easy-to- manage solutions platform, optimized specifically for office environments. The optimized platform integrates up to four PowerEdge M-series server nodes, storage, networking and management into a compact 5U chassis. Integrate networking through the 1GbE internal switch module or an optional Ethernet pass-through module with eight 1GbE ports.

Take advantage of flexible, expandable I/O with eight PCI Express® (PCIe) slots — three full height/ full-length and five low-profile/half-length. Capitalize with redundant 1100W AC power supplies, fans, blower modules, and chassis management controllers.

- Integrated IT solution, optimized for office environments
- Simplified systems management
- Up to four 2-socket, half-height PowerEdge M620 and M520 server nodes, or up to two 4-socket, full-height M820 server nodes
- Up to eight PCIe slots
- Up to 48TB storage capacity in chassis

Readily accommodates new workload requirements, while protecting existing investments in hardware, software, management tools and skills.

PCMG will help your organization plan for the unplanned

Having systems unavailable and people unproductive for days or hours can be disastrous in terms of lost revenue and customer dissatisfaction. In today's 24×7×365 workplace, you can't afford to be without the technology and information needed to run your agency. And it's not just floods, fires, hurricanes, and tornadoes that can cripple your systems—it's the more common events like hardware failures, bad backups, viruses, and power outages that can impact an organization at any time.

The increasing number of physical disasters and security concerns has forced organization to place a high priority on Business Continuity (BC) and Disaster Recovery (DR). According to a Q3 2012 Forrester Research survey, 61% of IT Executives report[ed] that purchasing or upgrading BC and DR capabilities was a top priority.[1]

61% of IT Executives report that purchasing or upgrading Business Continuity and Disaster Recovery capabilities is a top priority.

There is no tolerance for downtime in today's environment. Think about the impact on productivity and communications when something as simple as email goes down. Now, consider when critical organization applications are disrupted and the financial impact it could have if you're unable to process requests or carry out vital daily tasks.

Recovery strategies should be developed for systems, applications and data – including networks, servers, desktops, laptops, and mobile devices. IT systems require hardware, software and connectivity. Without one component, the system may not run. Recovery strategies should be developed to anticipate the loss of one or more of the following:

- Computer room environment (secure computer room with climate control, conditioned and backup power supply, etc.)
- Hardware (networks, servers, desktop and laptop computers, wireless devices and peripherals)
- Connectivity to service provider (fiber, cable, wireless, etc.)
- Software applications (Email, EDI, office productivity, etc.)
- Data and restoration

Some public sector applications cannot tolerate any downtime at all. They utilize dual data centers capable of handling all data processing needs, which run in parallel with data mirrored or synchronized between the two centers. This is a very expensive and complex solution that only larger agencies can afford. However, there are other solutions available for agencies with critical organization applications and data to protect.

The public sector demands for higher levels of IT availability will continue to increase. It's not a question of "if" but "how" IT operations will achieve these demands while still remaining cost effective. PCMG offers products and solutions that can help you to get back up and running when a disaster strikes. From backup software to power and cooling and more, we've got you covered.

PCMG Terms of Use & Sale

- All returns require a return authorization number. Requests must be made within 15 days of purchase. Returns may be subject to a minimum 15% restock fee. The amount refunded will be the lower price of either the date of purchase or date of return.
- To request a return authorization number, please call your Account Executive at the phone number listed on the front of this packing slip.
- Tape the return label provided to you on the box and ensure the return authorization number is clearly marked. Do not write on the original manufacturer's box.
- Returned product(s) must be complete including manufacturer's original package, accessories, software and manuals. Incomplete returns may be refused.
- A product must be received in our warehouse within 10 business days from the date the return authorization is given.
- The customer is responsible for all return shipping costs. COD shipments will not be accepted.
- We are not responsible for lost or stolen packages. We recommend using a courier that can track your package with a tracking number.
- Pack your return securely. We recommend insuring it for your protection.
- All other policies are in accordance with the policies published in our latest catalogs and on our website www.pcmg.com.
- We are no responsible for integrity or backups of data on any drive returned to us even if included in a system.
- Subsequent to an approval authorization, a credit to an account or issuance of a check can take up to 30 days.
- Missing a rebate? Look it up on our website: www.pcmg.com or call your Account Executive.

Terms/Warranty Disclaimer. PCMG expressly disclaims all expressed or implied warranties. Including any implied warranty of merchantability or of fitness for a particular purpose non-infringement. PCMG shall have no liability to anyone for incidental or consequential damages or any other liability, loss or damage arising out of or related to the merchandise sold. All merchandise is so "AS IS". PCMG makes no warranty as to the performance of any merchandise sold. We are not responsible for the system downtime, lost date, etc. This disclaimer by PCMG in no way affects the terms of a manufacturer warranty, if any. The following manufacturer's products cannot be returned for any reason. The manufacturer must be contacted for all repairs and warranty replacements. The warranty on the product is directly from the manufacturer. We will be happy to assist with the installation and instructions. However, the following manufacturers require you to contact them directly for repairs or replacement of your product. Unless subject to applicable master agreement or SOW signed by each parties, the offer and sale related to this invoice/packing slip is subject to the Terms of Use and Sale @ http://www.pcmg.com and those set forth herein not withstanding any purchase order to the contrary. Any disputes related hereto must be brought individually and not part of any class, in accordance with the above relevant Terms of Use and Sale.

The following manufacturer's product cannot be returned for any reason. The manufacturer must be contacted for all repairs and warranty replacements.

AUTODESK.

Software to bring out your creativity

Create drawings with the essential drafting tools in AutoCAD LT software.

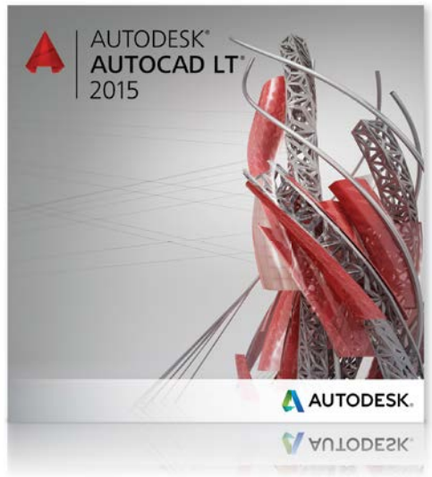
Now you can take design documentation to the next level. AutoCAD LT makes it easier to create, share, and edit professional drawings.

A new look inside and out

Experience a richly refined interface that's more detailed and easier to use than ever. Improved functionality and features are now set off against a darker background, creating an efficient workspace for minimized eyestrain.

Make it interactive

Incorporate online maps into your designs more easily with geographic location enhancements. Capture a map as a static image and freeze its location in your designs.



NEW in AutoCAD LT 2015:

- Access drawing content from the ribbon
- Command preview shows changes before committing
- New Tab opens new and existing drawings quickly
- Refined interface improves functionality and eyestrain
- Get the reliability of TrustedDWG technology

The New Mac Pro

Corporate Reseller

Built for creativity on an epic scale

Mac Pro® is the professional desktop computer reinvented from the inside out. Arranging the most advance technologies available around a unified thermal core makes this the most powerful and expandable Mac ever, yet also unbelievably compact and quiet. Finally, you'll have a desktop computer that actually fits on top of your desk.

Stunning Graphics

With the new Mac Pro, Apple looked ahead and engineered an even more powerful GPU architecture.

Not only does it feature a state-of-the-art AMD FirePro™ workstation-class GPU — it features two of them. And each is available with 2GB, 3GB, or 6GB of dedicated VRAM.
